Training description

The Regional workshop for the Caribbean was held from **11 to 13 June 2024** in Nassau, Bahamas, to provide an occasion to examine the concept of UMC and how to streamline it in national digital policies, how to improve the statistical capacity of countries in the region to produce and disseminate relevant statistical data, and how to use the data to identify good practices and policy recommendations. This workshop was organized in collaboration with the [Utilities Regulation and Competition Authority](#) of Bahamas.

For more information about the training objectives, target population, entry requirements,

methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
