Training description

The ITU Regional seminar for CIS countries on promoting and measuring Universal and Meaningful digital Connectivity (UMC) was held from 24 to 26 June 2024 in Tashkent, Uzbekistan, and provided an opportunity to explore the concept of UMC and how to streamline it in national digital policies, how to improve the statistical capacity of countries in the region to produce and disseminate relevant statistical data, and how to use the data to identify good practices and policy recommendations. This seminar was organized by ITU in collaboration with the [Ministry of Digital Technologies of the Republic of Uzbekistan](https://gov.uz/en/digital/).

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
