Training description

The course targets professionals actively involved in the management and leadership of deploying and running Complementary Access Networks (CANs). It covers the aspects of project planning, scope management, procurement and stakeholder engagement as well as the fundamental technical concepts of CANs.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
