**Location:** Nairobi, Kenya

**Dates:** 19 May 2026 - 22 May 2026

**Training fees:** \$0.00

**Language:** English

**Application deadline:** 25 Jan 2026

**Training code:** 26WS500308MUL-E-D

**Contact:** [ituacademy@itu.int](mailto:ituacademy@itu.int)

### Training description

Inspired by the UNESCO Framework on AI and Digital Transformation for Civil Servants, this course provides an introduction to AI with a focus on its application in the public service. Participants will be guided through the entire process of devising AI-based services in the public sector. Lessons will cover not just the functional aspects of this application but also the governance and ethical aspects of the process to offer a holistic point of view. The content of this course is built on the AI4Gov Master Programme, formerly supported by the EU and offered by Universidad Politécnica de Madrid and Politecnico di Milano.

With the generous support of the Global Gateway initiative of the European Union, this course is offered for free for selected participants. This includes accommodation, meals, and other organized activities. Participants or their organizations will be responsible for covering their travel expenses to Nairobi, Kenya, and if necessary, visa application costs.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
