Training fees: $0.00
Language: English

Application deadline: 02 Sep 2025
Training code: 25WS500310MUL-E-D
Contact: queenie.tam@undp.org

Training description

This course is designed to provide participants with foundational knowledge and practical skills in applying Digital Public Infrastructure (DPI) as an approach to national digital transformation. Participants will explore core DPI concepts, governance frameworks, the role of open-source, and implementation strategies for advancing inclusion, innovation and prosperity for all.

Through an interactive, hands-on approach, participants will analyze real-world scenarios and develop practical solutions while learning about stakeholder engagement strategies, trust and inclusion principles, financing models, and capacity building. The course will feature successful DPI implementations worldwide, highlighting governance, open-source principles, and inclusive design. The course culminates in a capstone project where participants will work in teams and apply their learning to either map gaps in existing DPI infrastructure or design a digital transformation initiative grounded in DPI principles and tailored to their national contexts and goals.

With the generous support of the European Union's Global Gateway initiative, participation in this training is free of charge for selected applicants. This includes meals during the period of the training and 3 nights of accommodation. Participants or their organizations are responsible for covering the costs of travel expenses to and from their home country to Panama City, Panama.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
