Training fees: $0.00
Language: English
Application deadline: 30 Sep 2025
Training code: 25WS500312ASP-E-D
Contact: samantha.oriordan@itu.int

Training description

This course is primarily based on the ITU/World Bank digital regulation platform, the ITU FCDO universal access and service financing efficiency toolkit and ITU MSIT innovative technologies trainings with a focus on the following aspects: digital transformation strategies, regulatory and collaborative governance, evidence-based decision making, competition and economics (market analysis), universal access and service financing efficiency, data governance and consumer protection, transformative technologies regulatory aspects and emerging technologies including AI technology aspects and their societal impact.

The scope of this course is to examine specific aspects of digital transformation policies and regulation to enhance further knowledge of participants on the issues at stake.

The course therefore does not provide for an in-depth analysis of each and every regulatory aspect of digital regulation but enables participants to get a deeper understanding and greater knowledge on specific aspects of policy and regulation in a digital world.

The training will be organized by ITU and partners (UK FCDO and Korea Rep. MSIT) for their members and other regional regulatory associations and their members.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
