AI for increasing the efficiency of telecommunications/ICTs using the Whole Government approach

Organized by:

Training details

Modality: Blended
Dates: *01 Oct 2025 - 10 Oct 2025*
Training fees: $0.00
Language: English
Application deadline: 07 Oct 2025
Training code: 25BL500350ASP-E-D
Contact: akanksha.sharma@itu.int

Training description

Enhance the capacity and awareness among government officials and key stakeholders on artificial intelligence technologies for increasing the efficiency of telecommunications/ICTs and the development and implementation of related ICT standards within the ITU's mandate and core competencies especially those described in the PP Resolution 214 (Bucharest, 2022), Artificial intelligence (AI) technologies and telecommunications/information and communications technologies.

With the generous support of the Ministry of Internal Affairs & Communications of Japan, the workshop will focus on capacity building and information sharing on ITU's ICT standardization activities focusing on AI, as part of the Bridging the Standardization Gap (BSG) programme through in-person and online workshops, and work towards integration of AI technology and standards in project countries' wider digital transformation efforts. The trainings will draw upon expertise from both the International Telecommunication Union (ITU) Telecommunication Development Bureau (BDT) and Telecommunication Standardization Bureau (TSB).

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
