### Training details

**Modality:** Online instructor led

**Dates:** 22 Jun 2026 - 03 Jul 2026

**Training fees:** \$0.00

**Language:** English

**Application deadline:** 22 May 2026

**Training code:** 26OI500390MUL-E-D

**Contact:** [training@afralti.org](mailto:training@afralti.org)

### Training description

This 20 hours online instructor-led is designed to equip professionals from the ICT and telecommunications regulatory sector with the knowledge and skills needed to navigate emerging technologies and their regulatory implications.

Participants will explore key technological advancements, including broadband Internet, 5G-Advanced, WiFi 6/7, 6G/IMT-2030, IoT, AI, cloud and edge computing, satellite communications (LEO and D2D) and future services such as XR, V2X communication, and the Quantum Internet. The

course connects these technologies to real-world applications, enabling participants to anticipate challenges, foster innovation, and enhance regulatory effectiveness.

The course incorporates interactive lectures, case studies, group work, and problem-based learning activities.

With the generous support of the Global Gateway initiative of the European Union, this course is offered for free for selected participants.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
