AI in practice: building ethical, inclusive, and sustainable futures

Organized by:

Training details

Modality: Online instructor led

Dates: 25 May 2026 - 05 Jun 2026

Training fees: \$0.00

Language: English

Application deadline: 03 May 2026

Training code: 26OI500397MUL-E-D

Contact: wangying@caict.ac.cn

Training description

The course offers a comprehensive exploration of Artificial Intelligence, examining its evolving landscape and its capacity to drive inclusive and sustainable development. It delves into the foundational principles and key technologies that underpin AI, such as generative AI, Natural Language Processing (NLP), and computer vision. Participants will learn how to identify and prioritize high-impact AI applications across critical sectors like energy, health, and education. The course also highlights models for multi-stakeholder collaboration and the creation of equitable AI ecosystems, with particular attention to the transformational adoption of AI in emerging economies. Finally, it addresses the development of ethical frameworks and global standards that promote responsible and accessible AI growth.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
