Location: Tallinn, Estonia

Dates: 03 Aug 2026 - 07 Aug 2026

Training fees: \$0.00

Language: English

Application deadline: 30 Apr 2026

Training code: 26WS500398MUL-E-D

Contact: anastasiia.dudko@taltech.ee

Training description

This training course will equip participants with the knowledge and tools to design and implement secure, interoperable, and citizen-focused digital public services. Through an in-depth exploration of GovStack's modular building blocks, service design tools, and frameworks such as PAERA, and real-

world case studies, this course offers practical insights into creating efficient and scalable digital services. Participants will learn about digital identity, security, interoperability, and cross-border services, gaining hands-on experience with tools and sandbox environments to develop transformative digital solutions oriented to citizens' needs.

With the generous support of the Global Gateway initiative of the European Union, participation in this training is provided free of charge for selected applicants. This includes accommodation, meals, and other organized and extracurricular activities. Participants or their organizations are responsible for covering the costs of travel expenses to and from their home countries to Tallinn, Estonia, and visa application costs if applicable.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
