Cyber disaster response: development of simulation exercises

Organized by:

Funded by

Global Gateway

Funded by the European Union

CERT-MU

Training details

Modality: Face to Face
Location: , Mauritius
Dates: *30 Nov 2026 - 03 Dec 2026*
Training fees: $0.00
Language: English

Application deadline: 15 Mar 2026
Training code: 26WS500403MUL-E-D
Contact: mlobin@cert.govmu.org

Training description

This 3.5-day training course provides essential steps and guidelines for designing effective cybersecurity exercises, focusing on the practical aspects of cybersecurity. During the course, participants will learn how to define objectives, choose appropriate approaches, create realistic scenarios, establish rules, select relevant metrics, and capture valuable lessons.

The program also emphasizes developing cyber disaster response simulations, enhancing participants' ability to foster collaboration between the public and private sector entities. By the end of the course, participants will gain a deeper understanding of cyber-attacks and strategies for protecting and defending critical information infrastructures. These skills will enable them to better plan, implement, and follow up on cyber disaster responses.

With generous support from the Global Gateway initiative of the European Union, participation in this training programme is free of charge for selected applicants. This includes accommodation, meals, and other planned learning activities during the training. Participants or their organizations are responsible for covering their travel expenses and visa application costs for Mauritius if needed.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
