Training fees: \$0.00

Language: English

Application deadline: 25 Aug 2026

Training code: 26OI500430MUL-E-D

Contact: zn@nrdfs.it

Training description

The CSIRT/SOC Establishment and Modernisation course is training program specifically designed to help organisations to establish an effective CSIRT/SOC team. The course provides a detailed guidance on the CSIRT/SOC team mandate and covers all the key elements required for its successful establishment.

Our experienced instructors bring a wealth of knowledge and expertise to the course, drawing upon real-world cases to share the critical lessons learned. Through a combination of theory and practical exercises, participants will gain a clear and actionable understanding of how to build, modernize and manage a robust cybersecurity team.

The course is comprehensive and methodical, covering all essential aspects of setting up a CSIRT/SOC team. Practical tips and tasks are provided to help participants plan their day-to-day activities, identify the services to provide to constituents, set KPIs, and choose the right tools to achieve their goals.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
