#### Training description

This course explains the linkages of ICT with development of Digital Economy and also the need to have appropriate policy and regulatory framework for development of ICT Sector in any country. Impact of broadband & Digitization on the economy of a country will also be explained. Issues and challenges associated with ICT Policy making will also be discussed. The participants will get deeper insights regarding the technology trends in ICT and their implication on various aspects of economy and smart society through case studies of successful implementation of Technology stacks leading to Digital transformation in different countries. There will be special emphasis on issues like data privacy, security and digital sovereignty in the context of International best practices. The participants will also be given a small project of developing ICT Policy for a hypothetical country.
