National cyber priorities: laying the groundwork for CII protection

Organized by:

NRD Cyber Security

Training details

Modality: Online instructor led
Dates: *05 May 2026 - 07 May 2026*
Training fees: $0.00
Language: English
Application deadline: 28 Apr 2026
Training code: 26OI500435MUL-E-D
Contact: zn@nrdcs.lt

Training description

The course introduces the core principles of CIIP from a national cybersecurity perspective. Day one focuses on methodologies for identifying and classifying CII, understanding key threats, and reviewing international good practices. It also covers stakeholder roles and responsibilities, supported by an interactive exercise to map national CII and relevant actors.

Furthermore, the participants will learn how to build and implement a national CIIP framework, also the legal and policy foundations, risk assessment approaches, and coordination mechanisms will be analysed and discussed in group. Participants will engage in a group activity to outline key elements of a national CIIP action plan, concluding with a session to summarize key insights and define next steps.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
