Dates: *06 Jul 2026 - 19 Jul 2026*
Training fees: $0.00
Language: English
Application deadline: 01 Jul 2026
Training code: 26OI500440MUL-E-D
Contact: wangying@caict.ac.cn

Training description

The first focus of this course is on the application, practice and development opportunities of AI in the healthcare industry, with a particular focus on the needs and realities of developing countries. It covers core AI technologies and their healthcare applications, practical paths for implementing AI healthcare projects in developing countries, and global trends and regional opportunities. Unique benefits include case studies tailored to developing regions, actionable implementation strategies, and insights into leveraging global resources for local development.

Secondly, in the part of digital government, this course covers three core dimensions: digital transformation, optimization of online services, and data governance. Framed by the United Nations E-Government Development Index (EGDI), it examines current global trends and regional characteristics in digital governance. The curriculum facilitates a comparative analysis of digital transformation initiatives across major economies, highlighting both international best practices and

distinctive Chinese approaches.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
