Training details

Modality: Face to Face

Location: Bangkok, Thailand

Dates: 11 Feb 2026 - 13 Feb 2026

Training fees: \$0.00

Language: English

Registration deadline: 06 Feb 2026

Training code: 26WS500456ASP-E-D

Contact: itu-ro-asiapacific@itu.int

Training description

This training program provides a comprehensive three-day curriculum on two international security standards—Storage Protection (X.1220/X.nspam) and Passwordless Authentication (X.1280)—along with related free software for use in healthcare institutions and B2C online service environments.

Participants will gain both theoretical knowledge and practical experience in storage protection technologies that defend against ransomware and data exfiltration, as well as passwordless authentication technologies that prevent phishing attacks. The program ensures that participants acquire hands-on skills applicable to real-world environments.

(Non-developers can also participate in the Day 1 and Day 2 morning practical sessions.)

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
