**Location:** , India
**Dates:** *05 Oct 2026 - 09 Oct 2026*
**Training fees:** $0.00
**Language:** English
**Application deadline:** 15 Jul 2026
**Training code:** 26WS500480MUL-E-D
**Contact:** Ituacademy@itu.int

## Training description

This blended training course is designed for policymakers, regulators, civil society leaders, and professionals globally seeking to enhance their skills in AI governance. It provides a comprehensive introduction to AI concepts, ethics, cybersecurity, and global legal frameworks.

Through a preparatory online self-paced training course and in-person training, participants will engage in hands-on activities such as design thinking labs, simulations, journey mapping, and prototyping to explore the AI system lifecycle, identify governance gaps, test oversight tools, and co-develop national strategies. The self-paced component introduces core AI governance concepts and ensures a common baseline of knowledge ahead of the in-person sessions. Scenario-based exercises will address sector-specific challenges, risk mapping, and cross-border regulatory negotiations. By the end of the course, participants will have collaboratively developed a five-year AI governance roadmap tailored to their institutional or national context, aligned with international best practices.

The course is co-organized by the International Telecommunication Union (ITU) with funding from the European Union's Global Gateway initiative. Participation is free of charge for selected applicants and includes accommodation, meals, and organized activities in Delhi, India. Travel and visa-related expenses, if applicable, are the responsibility of participants or their sponsoring organizations.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
