Registration information

Implementation of spectrum monitoring systems according to ITU-R Recommendations

Organized by:

Training details

Modality: Face to Face
Location: Munich, Germany
Dates: *15 Jun 2026 - 19 Jun 2026*
Training fees: $0.00
Language: English
Application deadline: 01 Apr 2026
Training code: 26WS500481MUL-E-D
Contact: philipp.strobel@rohde-schwarz.com

Training description

A practical and engaging course designed for professionals in telecommunications, this program offers a well-rounded introduction to key tasks, technical procedures, and essential tools used in modern spectrum monitoring.

It focuses on core concepts in spectrum monitoring, exploring regulatory frameworks and international best practices. Participants will become proficient in technical foundations, software tools & applications, via practical exercises and interactive real-world scenarios. During the five days of the training, activities will focus on getting hands-on experience with industry-standard spectrum monitoring equipment, learning fundamentals and to interpret measurement results towards mastering the fundamentals of spectrum monitoring.

This training is offered free of charge for selected participants. Participants are expected to cover their travel costs, visa costs, accommodation, and any other associated expenses.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
