Training fees: $0.00
Language: English
Application deadline: 01 Nov 2026
Training code: 26OI500534MUL-E-D
Contact: ituacademy@itu.int

Training description

Mobile money services have become a key enabler for financial inclusion, especially in low- and middle-income countries (LMICs). This has resulted in the growth and increased adoption of mobile money services, with the result that they now support 1.6 billion users in carrying out regular transactions. Despite the benefits of mobile money services, there are still areas that can be improved to increase their impact, especially in the area of policy and regulation. This course aims to support policymakers and regulators in understanding the contribution mobile money services make to financial inclusion in line with the OECD High-Level Financial Inclusion Principles, provide insights into current mobile money adoption trends, and identify appropriate regulatory frameworks that can be used to support licensing and oversight of mobile money services.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
