# Responsible digital transformation: impact assessments for AI and data governance

**Organized by:**

**Funded by**

Global Gateway

## Training details

**Modality:** Online instructor led
**Dates:** *06 Oct 2026 - 27 Oct 2026*
**Training fees:** $0.00

**Language:** English
**Application deadline:** 19 Sep 2026
**Training code:** 26OI500571MUL-E-D
**Contact:** queenie.tam@undp.org

## Training description

As governments accelerate digital transformation, the use of AI and data-driven systems in public services is rapidly expanding. These technologies are reshaping service delivery while introducing new challenges around fairness, transparency, accountability, and inclusion.

This course equips policymakers and practitioners to move beyond general principles and awareness, and apply **practical impact assessment tools** to real governance decisions involving AI, digital public infrastructure and data-driven public services.

Building on **UNDP's Human Rights Impact Assessment (HRIA) methodology**, the course guides participants through a structured process to scope a use case, identify risks and impacts, and develop mitigation and governance recommendations.

By the end of the course, participants will have developed a draft impact assessment and mitigation plan for a real-world digital or AI governance use case relevant to their institutional contexts.

With the generous support of the Global Gateway strategy of the European Union, this course is free for selected participants.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
