Training details

Modality: Online instructor led

Dates: 19 Oct 2026 - 13 Nov 2026

Training fees: \$0.00

Language: English

Application deadline: 30 Sep 2026

Payment methods: bank_transfer, credit_card, M-PESA, Bank transfer, Credit card, M-PESA

Training code: 26OI500586MUL-E-D

Contact: training@afralti.org

Training description

This course covers spectrum engineering foundations for students to be able to perform link budget calculations, interference analysis, and provide an understanding of 3D propagation modelling for radio communications services frequency planning. This is intended to support modern spectrum management.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
