Training description

QazCoders is an educational programme aimed at promoting digital literacy and developing national competencies in information technology (IT) and artificial intelligence (AI). It offers self-paced online training courses to representatives of African ITU Member States.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
