Training description

The ITU Asia-Pacific Centre of Excellence (ITU ASP CoE) Training Programme on " Broadband Mobile and Internet of Things Network Planning? for the Asia-Pacific Region will be conducted from 19-22 September 2017. This training is organized jointly by the ITU, the National Broadcasting and Telecommunications Commission (NBTC) and the Ministry of Digital Economy and Society (Thailand) as part of the Policy and Regulation Programme under the auspices of the ITU ASP COE. The training will be delivered in English in Bangkok, Thailand. Detailed information on this training is described in the training outline, which can also be downloaded from the ITU Academy Portal at http://academy.itu.int/ and http://www.itu.int/itu-d/asp. This training is targeted at technical staff from regulators, policy makers, telecom operators and academia, who are interested in network planning aspects of broadband mobile (LTE) and IoT and preparing roadmap for IMT 2020 (5G). Registration for this program should be made online at the aforementioned link no later than 10 September 2017. The training is available free of charge with the kind support of the Ministry of Digital Economy and Society (Thailand) and the NBTC (Thailand).

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
