Training description

Cet atelier sur l?audit de la sécurité des systèmes de management de l'information (SMSI) ou ISO 27001 Lead Auditor, aborde les principes fondamentaux et les connaissances nécessaires à la réalisation d?audits de conformité d'un système de management de la sécurité de l'information par rapport aux exigences de la norme ISO 27001 version 2013. Ce cours intensif formera les participants à la gestion et à la facilitation des audits de certification des organismes à la norme ISO 27001, en mettant un accent particulier sur les processus d'enregistrement. Des exercices pratiques d'audit seront réalisés au cours de cet atelier de formation, à travers des jeux de rôles seul ou en groupe, tirés de missions réelles. La formation est basée sur les lignes directrices d'audit de système de management (ISO 19011) ainsi que sur les meilleures pratiques internationales d'audit.
