Training description

The ITU Asia-Pacific CoE training on "Wireless Broadband Roadmap Development" will be held from 06-09 August, 2016 at Tehran, I.R. Iran. The training, which is organized by the ITU, ALTTC and MICT (Iran) aims ? to build knowledge of policy makers, regulators and telecom operators in the areas of wireless broadband ecosystem. ? to provide information on wireless broadband policy & regulation, standards and technology. , and ? to build skills on how to develop a roadmap for wireless broadband. The training is being offered free of charge with support from partners. The target audience includes staff from policy makers, regulators, telecom operators, and academia responsible for wireless broadband

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.
