Training description

This face-to-face training is organized jointly by the International Telecommunication Union and the State Radio Monitoring Centre (SRMC), MIIT, China as part of the priority programme on Spectrum Management under the auspices of the ITU Centres of Excellence for Asia-Pacific region. The training will be delivered in English. This training is designed to address technical staff from policy makers, regulators, corporate executives and managers, i.e. middle-level managers, administrators and officials dealing with Spectrum Management and Monitoring and covers both theoretical and practical issues. The training will take place at the state Monitoring facility managed by SRMC in Chengdu, China.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply
