#### **Training description**

The Obligatory Module 1: 'Legal Basis and Regulatory Framework of Spectrum Management' is the first out of 15 modules of SMTP and covers the basic subjects and concepts of Spectrum Management. The module is very important as it will set the stage and context for the rest of the Spectrum Management Training Programme (SMTP) teaching. This module looks at the regulatory framework from the global level, to the regional and national level. It covers information on the role of ITU; its structure

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
