Training description

This workshop aims to train trainers in designing and delivering eLearning (i.e., distance learning) courses. It focuses on how to organize and develop eLearning courses and how to support the delivery of such courses over the Internet. The workshop introduces participants to the online Learning Management Systems, and gives particular attention to the Moodle open source platform which is used for creation of the ITU Academy web site for delivering eLearning courses.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
