Contact: ashish.narayan@itu.int

Training description

Infrastructure Sharing is becoming an issue of equal interest to industry and operators in telecom/ICT. While on one side it is seen as an industry effort to facilitate the sharing on the other specific regulatory initiatives are undertaken to avoid duplication of investment in infrastructure, promote green growth, meet universal access objectives, and to promote effective competition. Further, with the increase in deployment of fiber networks, need for roll out of mobile towers in rural remote
