Training description

This training workshop is being organized by the International Telecommunication Union and the Ministry of Information and Communication Technology (MICT), Thailand, under the framework of the ITU Asia Pacific Centres of Excellence (ITU ASP CoE), and is supported by APNIC and TOT Academy. This training aims to build skills on migration of telecom service provider networks from IPv4 to IPv6. Ideal participants are expected to have fundamental technical background in BGP, OSPF or ISIS.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
