1. [Introduction to service quality regulation](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: halima.letamo@itu.int
- Price: \$0.00

In the telecommunications industry, price is no longer the sole factor in purchasing decisions. Service quality plays a key role to all stakeholders and, particularly, in achieving consumer satisfaction. The measurement of Quality of Service (QoS) and Quality of Experience (QoE) is, however, becoming increasingly complex to obtain as quality can be compromised by various factors along the value chain such as with the network infrastructure, the devices and/or applications a consumer is using and other factors influencing a consumer's experience.

2. [Universal service financing efficiency toolkit](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: Portuguese, English
- Event email contact: nancy.sundberg@itu.int
- Price: \$0.00

A practical guide for universal access and service implementation, this toolkit offers analytical tools, examples, and templates to assist policy-makers, regulators, and fund administrators in designing, implementing, and financing digital technology and communication infrastructure programs.

3. [Practical disaster response: how to develop table top simulation exercises \(TTX\)](#)

-
- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
 - Dates: 10 Jan 2024 - 31 Dec 2024
 - Training type: Online self-paced
 - Location: World or Multi-Regional
 - Languages: English
 - Event email contact: eetmail@itu.int
 - Price: \$0.00

This course is aimed at providing guidance for developing table top simulation exercises which will help to test if NETPs and other national strategies for disaster preparedness and response are ready to be used when disasters strike.

[4. An introduction to e-waste policy](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Arabic, Spanish, English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

This self-paced course aims to support national stakeholders in developing national Waste Electrical and Electronic Equipment (WEEE) policy and regulation. In addition to an introduction and overview, the course consists of the following four modules: 1) Waste Electrical and Electronic Equipment (WEEE), 2) Extended Producer Responsibility (EPR), 3) Financial Management, and 4) Government Stakeholder Groups and Interests.

[5. Deep dive into the Extended Producer Responsibility \(EPR\) principle for e-waste management](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

A follow-up to the introduction to e-waste policy, this course is a key resource for understanding EPR's foundation and requirements, aimed at assisting in the production of e-waste policy and regulation.

[6. Measuring digital development: ICT access and use by households and individuals](#)

-
- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
 - Dates: 10 Jan 2024 - 31 Dec 2024
 - Training type: Online self-paced
 - Location: World or Multi-Regional
 - Languages: English
 - Event email contact: martin.schaaper@itu.int
 - Price: \$0.00

The training aims to strengthen the capacity of countries to produce ICT indicators and statistics according to international standards and methodologies. It is intended to assist national statistical offices in collecting and compiling ICT statistics on the access and use to ICTs by households and individuals, by providing guidance on the collection, processing, evaluation and dissemination of ICT household statistics.

7. [Introduction to broadband mapping](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English, Portuguese
- Event email contact: ituacademy@itu.int
- Price: \$0.00

Broadband mapping combined with modern Geographic Information Systems (GIS) and its practical knowledge supports efficient identification of connectivity gaps, network planning to extend access to most critical places, and support to decision making based on evidence-based models. This training offers an introductory path to anyone interested in embarking on the exciting broadband mapping journey. Consisting of 5 modules, from the beginning GIS, data and demonstration of open source practical tools.

8. [Introduction to spectrum management](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

Wireless technology now drives the development and diversification of information and communication services for government, industry, and the public. In line with the rapid growth of many wireless services and applications, efficient management of radio spectrum has become more and more important for the socio-economic development of a country. The radio spectrum is a scarce natural resource and foundation for all the new mobile applications, and how efficiently use this

crucial asset could decide the flourishing or languishing of new wireless service industries in a country.

[9. The Tampere Convention and telecommunications deployments when disasters strike](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: eetmail@itu.int
- Price: \$0.00

This course is to raise awareness on the importance of the Tampere Convention, how to undertake the ratification process as well as the implementation at the national level.

[10. An introduction to the e-waste challenge](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

This course aims to provide an overview of the global e-waste challenge, including e-waste statistics and legislation based on the latest data from the Global E-waste Monitor and the Global E-waste Statistics Partnership. The course will take approximately 1 hour 30 minutes to complete, and participants will receive a badge certifying successful completion if the course was passed at 70% or higher.

[11. Measuring digital development: Telecommunication/ICT indicators](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: thierry.geiger@itu.int
- Price: \$0.00

The training aims to strengthen the capacity of countries to produce ICT indicators and statistics

according to international standards and methodologies. It presents the main groups of telecommunication/ICT indicators collected and the different questionnaires as well as the definition and methodologies of the indicators following the ITU Handbook for the collection of administrative data on telecommunications/ICT. Examples provided address data gaps and challenges faced by countries and suggests possible solutions.

12. [The last mile internet connectivity](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: thierry.geiger@itu.int
- Price: \$0.00

This course is based on two ITU products: The Last-Mile Connectivity Internet Solutions Guide and Broadband Connectivity Toolkit. The Last-Mile Connectivity Internet Solutions Guide was developed to support the design and development of programmes and interventions that address the lack of Internet infrastructure availability in certain areas and high Internet service prices that make Internet connectivity unaffordable for local populations.

13. [An introduction to developing National Emergency Telecommunication Plans](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: eetmail@itu.int
- Price: \$0.00

The course is aimed at providing information on how to develop National Emergency Telecommunications Plans through a multi-stakeholder approach including all phases of disaster management.

14. [Addressing the e-waste challenge through data and statistics](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int

-
- Price: \$0.00

This course aims to provide an overview of the global e-waste challenge, including e-waste statistics and legislation based on the latest data from the Global E-waste Monitor and the Global E-waste Statistics Partnership. The course will take approximately 12 hours to complete, and participants will receive a badge certifying successful completion if the course was passed at 70% or higher.

15. [Circular and sustainable public procurement for ICTs](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

The course is a bite-sized version of the Circular and Sustainable Public Procurement for ICTs. It sets out the systems and process requirements for ICT procurement in a way that supports the transition to circular and sustainable system solutions.

16. [Greening data centers](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

Reliable, secure data-hosting solutions are becoming increasingly important to support everyday functions across societies. Although data infrastructure such as data centers and cloud solutions are essential for storing and processing data, they are highly energy intensive and consume refrigerants and often large amounts of water for cooling. As such, they leave a large environmental footprint and contribute to greenhouse gas (GHG) emissions. Climate change also affects data centers.

17. [How to design and develop online courses](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English

-
- Event email contact: halima.letamo@itu.int
 - Price: \$0.00

This course aims to improve skills in designing and developing online courses, consisting of 5 modules, including practical tasks and access to multimedia resources for converting face-to-face content into online courses.

18. [Mobile phone data](#)

- Registration: OPENED, 10 Jan 2024 - 20 Dec 2024
- Dates: 10 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: thierry.geiger@itu.int
- Price: \$0.00

This course aims to raise awareness of what Mobile Phone Data is and to showcase how it can be applied at a National Statistical Organisation (NSO). Information will be shared on how to obtain Mobile Phone Data, plus the opportunities and challenges it presents for incorporating its use at the NSO. The course has been developed by the Task Team on Mobile Phone Data of the UN Committee of Experts on Big Data and Data Science for Official Statistics (UN-CEBD).

19. [Green and digital entrepreneurship for women](#)

- Registration: OPENED, 12 Jan 2024 - 20 Dec 2024
- Dates: 12 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: rosie.mcdonald@itu.int
- Price: \$0.00

This training course empowers start-up and scale-up women entrepreneurs by developing green digital entrepreneurship knowledge and skills in order to increase their economic empowerment. The course is designed to guide participants through the concepts and benefits of green business, green and circular economy and sustainability concepts. It also explores digital green concepts, how to green supply chains and green finance. This course has been made possible with the support of the Women's Entrepreneurship Accelerator (WEA).

20. [How to set up assessments in the ITU Academy platform](#)

- Registration: OPENED, 15 Jan 2024 - 20 Dec 2024
- Dates: 15 Jan 2024 - 31 Dec 2024

-
- Training type: Online self-paced
 - Location: World or Multi-Regional
 - Languages: English
 - Event email contact: ituacademy@itu.int
 - Price: \$0.00

The overall goal of this course is to improve the skills of the learners in setting up and using formative and summative assessment tools in the ITU Academy Moodle platform.

21. [Lifecycle, principles and good-practices on national cybersecurity strategy development and implementation](#)

- Registration: OPENED, 15 Jan 2024 - 20 Dec 2024
- Dates: 15 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Russian, Spanish, English
- Event email contact: orhan.osmani[at]itu.int
- Price: \$0.00

Focusing on protecting civilian aspects of cyberspace, this course covers the overarching principles and good practices in drafting, developing, and managing a National Cybersecurity Strategy, based on existing models and frameworks.

22. [Child Online Protection for policy-makers](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, English
- Event email contact: fanny.rotino@itu.int
- Price: \$0.00

Designed for policy-makers, this course focuses on child online behaviours, threats, and risks associated with cyberspace, aiming to develop national policies and strategies that are holistic, inclusive, and evidence-based.

23. [ICT Accessibility: the key to inclusive communication](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional

-
- Languages: French, Russian, Arabic, Spanish, English
 - Event email contact: roxana.widmer-iliescu@itu.int
 - Price: \$0.00

Information and communication technologies (ICTs) have become a part of everyone's life as the primary means for communications, information sharing, transactions, education, and entertainment, regardless of one's age, gender, or ability. Therefore, it is essential to know how to communicate with each other in a digitally inclusive way, mainstreaming ICT accessibility as the key to achieving a digitally inclusive world. To achieve inclusive communication, ICT accessibility requirements, principles and standards should be fully considered and implemented.

24. [Web Accessibility: the cornerstone of digital society](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Russian, Arabic, Spanish, English
- Event email contact: roxana.widmer-iliescu@itu.int
- Price: \$0.00

Every day we see how Information and Communication Technologies (ICTs) impact our lives and participation in society by the way we work, learn, purchase our goods, listen to the news, or communicate with one another. Access to information is a fundamental human right. Our world is digital, and most of the information we receive is through digital platforms, such as websites. For this reason, web accessibility has never been as crucial as it is today. The accessibility of websites is key to ensure equal and equitable access for all people to ICTs and their related products and services.

25. [Child Online Protection for parents and carers \(introductory\)](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: fanny.rotino@itu.int
- Price: \$0.00

Aimed at parents and guardians, this course covers child online behaviours, threats, and risks, helping to build open conversations about cyber safety in the family setting.

26. [Child Online Protection for educators: social workers, academic and non-academic staff \(introductory\)](#)

-
- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
 - Dates: 18 Jan 2024 - 31 Dec 2024
 - Training type: Online self-paced
 - Location: World or Multi-Regional
 - Languages: French, Spanish, English
 - Event email contact: fanny.rotino@itu.int
 - Price: \$0.00

Tailored for professionals in the education sector, this introductory course on Child Online Protection addresses online risks and provides guidance on shaping positive digital practices among young people.

27. [ICTs for better ageing and livelihood in the digital landscape](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Spanish, English
- Event email contact: roxana.widmer-iliescu@itu.int
- Price: \$0.00

The training course aims at raising awareness and increasing the capacity of ITU members, stakeholders and policy-makers to address the two global megatrends of population ageing and the exponential rise in digital technologies. Through its three modules the training provides holistic information and guidelines on digital inclusion tailored to the challenges faced by older persons.

28. [Child Online Protection for parents and carers \(intermediate\)](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: fanny.rotino@itu.int
- Price: \$0.00

This course engages parents in understanding the nature of children's online engagements, focusing on reducing risks and safeguarding children online.

29. [Child Online Protection for educators: social workers, academic and non-academic staff \(intermediate\)](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024

-
- Dates: 18 Jan 2024 - 31 Dec 2024
 - Training type: Online self-paced
 - Location: World or Multi-Regional
 - Languages: French, Spanish, English
 - Event email contact: fanny.rotino@itu.int
 - Price: \$0.00

This course is designed to help educators better understand the risks related to Online Child Sexual Exploitation and Abuse (further - OCSEA), and how the educational environments can be used to prevent children from harm associated with OCSEA.

30. [How to ensure inclusive digital communication during crisis and emergency situations](#)

- Registration: OPENED, 18 Jan 2024 - 20 Dec 2024
- Dates: 18 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Arabic, Spanish, English
- Event email contact: roxana.widmer-iliescu@itu.int
- Price: \$0.00

This self-paced online course on inclusive digital communication during crises and emergency situations has been developed in response to the COVID-19 pandemic. This health crisis has revealed the importance of ensuring that every person can access and utilise digital information provided through digital platforms, which in these situations could be vital. The world is facing an unprecedented experience in which Information and Communication Technologies (ICTs) are, in certain circumstances, almost the only possibility for people to communicate with one another.

31. [Smart for all: beyond smart cities, building inclusive and digitally accessible environments and communities](#)

- Registration: OPENED, 19 Jan 2024 - 20 Dec 2024
- Dates: 19 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: Arabic, English, French, Russian, Spanish
- Event email contact: roxana.widmer-iliescu@itu.int
- Price: \$0.00

This course discusses building inclusive and digitally accessible environments and communities, underlining the importance of digital inclusivity and accessibility for all people, empowered through ICTs regardless of gender, age, ability, or context.

32. Innovation ecosystem 101: fundamentals on building competitive and innovative ICT-centric ecosystems

- Registration: OPENED, 19 Jan 2024 - 20 Dec 2024
- Dates: 19 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Russian, Chinese, Arabic, Spanish, English
- Event email contact: mohamed.ba@itu.int
- Price: \$0.00

The course is Intended for policy-makers, decision-makers, innovators and ecosystem builders who wish to build thriving entrepreneurial communities that can navigate technological revolutions and create competitive ICT industries. The course introduces key terminologies, concepts, tools and steps to assess your country's innovation capacity through practical information. Upon completion of the course, you will understand: Innovation, digital ecosystems and digital transformation, and their relationship to national development priorities.

33. Inclusive digital transformation for the achievement of the SDGs and the SAMOA Pathway in SIDS

- Registration: OPENED, 19 Jan 2024 - 20 Dec 2024
- Dates: 19 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: French, Portuguese, Spanish, English
- Event email contact: halima.letamo@itu.int
- Price: \$0.00

The past two years have shown that digital transformation is no longer optional. It is a central tool for public service delivery, citizen engagement, and catalysing new industries and opportunities. Digital is a key enabler for development in Small Island Developing States, with a crucial role in building their resilience and economic recovery.

34. Inclusive employment: how to ensure that online job applications and recruitment systems are accessible to all

- Registration: OPENED, 19 Jan 2024 - 20 Dec 2024
- Dates: 19 Jan 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: jenny.arana@itu.int
- Price: \$0.00

One of the many barriers that persons with disabilities face in accessing employment opportunities is

that many career sites and job portals do not contain accessible digital content and have not been designed and developed with ICT accessibility requirements in mind. Employers committed to inclusive employment need to be aware of this. Guaranteeing that job portals meet the necessary accessibility requirements is critical for persons with disabilities to enter and thrive in the labour market.

35. [5G Essentials](#)

- Registration: OPENED, 13 Feb 2024 - 20 Dec 2024
- Dates: 16 Feb 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: danielnunes@inatel.br
- Price: \$105.00

This online self-paced course provides a comprehensive overview of the 5G technology and its potential to bring social and economic growth to developing countries. Through ten videos covering topics such as enabling technologies, 5G applications, network architecture, core network, and access network, learners will gain knowledge and insights into how 5G can bridge the digital divide, improve healthcare, education, and agriculture, and enhance overall economic growth.

36. [Introduction to technical and soft skills with the African Girls Can Code Initiative](#)

- Registration: OPENED, 01 Mar 2024 - 20 Dec 2024
- Dates: 01 Mar 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: Africa
- Languages: English
- Event email contact: caroline.gaju@itu.int
- Price: \$0.00

With consideration of the curriculum followed in respective learning institutions, the courses delivered under the African Girls Can Code Initiative are categorized under two Modules that include Technical Skills and Soft Skills. This approach aims to build and strengthen the digital skills of the young girls and enable them to pursue Science, Technology, Engineering and Mathematics (STEM) while preparing them for future career opportunities in the digital sector.

37. [Gender analysis and digital inclusion: how to achieve gender equality in the digital sector](#)

- Registration: OPENED, 08 Mar 2024 - 20 Dec 2024
- Dates: 08 Mar 2024 - 31 Dec 2024
- Training type: Online self-paced

-
- Location: World or Multi-Regional
 - Languages: English
 - Event email contact: ituacademy@itu.int
 - Price: \$0.00

By completing this course, you will be able to better understand how to achieve gender equality in the digital sector, and how gender analysis can be used as a tool to contribute towards project, program and global goals towards gender equality results. Research reveals that despite unprecedented advances in digital technologies, women worldwide face unique barriers preventing them from fully benefiting from the digital sector at large. The problem is that the digital sector is an area where gender analysis has been less widely used than in other sectors, leading to gender inequalities.

38. [Child rights and business in the digital environment](#)

- Registration: OPENED, 13 Mar 2024 - 20 Dec 2024
- Dates: 13 Mar 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: fanny.rotino@itu.int
- Price: \$0.00

Children, or everyone under the age of 18, make up an estimated one in three internet users globally. The digital world provides children with unprecedented opportunities, while also exposing them to online risks and harms that require dedicated efforts to understand and address. Governments, parents and caregivers, educators, civil society, and children and young people themselves all around the world have a role to play in shaping a safe and positive digital environment for children.

39. [Strategic foresight 101](#)

- Registration: OPENED, 04 Mar 2024 - 20 Dec 2024
- Dates: 15 Mar 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: innovation@itu.int
- Price: \$0.00

This self-paced training course offers an introductory exploration of strategic foresight tailored to individuals engaged in fostering digital innovation for sustainable development. With a focus on bridging the digital divide and addressing global challenges, the course emphasizes the crucial role of strategic foresight in shaping equitable futures. Through seven modules, participants delve into essential concepts, tools, and terminology while honing practical skills in futures thinking.

40. [Advanced broadband mapping](#)

- Registration: OPENED, 01 Apr 2024 - 20 Dec 2024
- Dates: 01 Apr 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: vladimir.daigele@itu.int
- Price: \$0.00

Broadband mapping combined with modern Geographic Information Systems (GIS) and its practical knowledge supports efficient identification of connectivity gaps, network planning to extend access to most critical places, and support to decision making based on data-based models. Developed by the ITU, this training offers an advanced path to continue the introductory course of Broadband Mapping, provided also in a Self-paced format by the ITU Academy.

41. [Wireless infrastructure deployment and governance: accelerating sustainable connectivity for national development](#)

- Registration: OPENED, 22 Apr 2024 - 01 Dec 2024
- Dates: 22 Apr 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: Portuguese, Spanish, English
- Event email contact: carlos.lugo-silva@itu.int
- Price: \$0.00

This online course aims to equip national and local government authorities with the necessary knowledge and skills to foster a technical understanding of the telecommunications sector, specifically focusing on wireless infrastructure deployment. Through an exploration of regulatory and fiscal aspects related to permitting approvals and processes, this course provides a holistic overview of the key principles essential for promoting investment in connectivity and bridging the digital divide.

42. [Business planning for ICT infrastructure development](#)

- Registration: OPENED, 29 Apr 2024 - 20 Dec 2024
- Dates: 29 Apr 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: vladimir.daigele@itu.int
- Price: \$0.00

The ICT infrastructure business planning training course offers regulators, policymakers, and stakeholders a practical approach for the accurate economic evaluation of broadband infrastructure installation and deployment plans. The expert guidance offered in this course is based on the ITU ICT

infrastructure business planning toolkit - 5G networks, 2023 and aims at facilitating the development of credible and coherent business plans adaptable to a wide range of broadband infrastructure deployment projects.

[43. Global satellite regulation essentials: key principles, institutional landscape and the role of ITU](#)

- Registration: OPENED, 01 May 2024 - 20 Dec 2024
- Dates: 01 May 2024 - 31 Dec 2024
- Training type: Online self-paced
- Location: World or Multi-Regional
- Languages: English
- Event email contact: vladimir.daigele@itu.int
- Price: \$0.00

The course on the Orbit-Spectrum International Regulatory Framework, with a specific focus on ITU's regulatory procedures, is designed to provide an introduction to the key principles of the regulations governing satellite projects. Participants will learn about the international legal and regulatory framework that governs the use and management of radio frequency spectrum and associated orbits. The course will also delve into ITU's specific regulatory processes, clarifying when and how to engage with this entity for requesting or registering radio frequencies for satellite projects.

[44. Key aspects and governance of Internet of things, big data and artificial intelligence](#)

- Registration: OPENED, 20 Jun 2024 - 22 Sep 2024
- Dates: 23 Sep 2024 - 30 Sep 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: s.laskowski@il-pib.pl
- Price: \$150.00

This course focuses on technical, business and regulatory aspects of Internet of Things (IoT), Big Data and Artificial Intelligence (AI). It covers Internet technologies for IoT, then IoT standards, architectures and interoperability, as well as IoT policies and regulations, including IoT security and privacy issues. The course includes IoT services in 4G and 5G mobile systems, including massive IoT and critical IoT use cases. The IoT generates large amounts of data that cannot be processed by traditional techniques, and such data is referred to as Big Data.

[45. 5G for policymakers and government officials](#)

- Registration: OPENED, 26 Jul 2024 - 15 Sep 2024
- Dates: 30 Sep 2024 - 11 Oct 2024
- Training type: Online instructor led

-
- Location: World or Multi-Regional
 - Languages: English
 - Event email contact: ituacademy@itu.int
 - Price: \$0.00

This course provides a comprehensive overview of 5G technology, its global regulation and applications. Participants will learn about the evolution and key components of 5G, its applications in sectors such as healthcare and transportation, and the regulatory landscape in different regions. The course also covers security and privacy issues, as well as the economic and social impacts of 5G. Case studies will be presented and best practices for effective 5G deployment will be discussed, preparing participants to influence the development of this technology.

46. [Cyber resilience of critical information](#)

- Registration: OPENED, 31 May 2024 - 18 Sep 2024
- Dates: 01 Oct 2024 - 04 Oct 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: mlobin@cert.govmu.org
- Price: \$0.00

Critical Information Infrastructure is defined as those assets systems and functions that are vital to the nations that their incapacity or destruction would have a devastating impact on the economy, government capability to function, public health and safety as well as on national defense and security. This training course focuses on protecting and strengthening the cyber resilience of critical information infrastructures. The course will also introduce participants to the key terms, policy, guidance, and preparedness efforts required to safeguard critical information infrastructures.

47. [Digital inclusion in the workplace for persons with disabilities](#)

- Registration: OPENED, 26 Apr 2024 - 04 Oct 2024
- Dates: 08 Oct 2024 - 08 Nov 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: mikaila.collymore@cavehill.uwi.edu
- Price: \$300.00

While many individuals with disabilities are technologically savvy, persons with disabilities in general are faced with a digital gap. This is further compounded by digital gaps along lines of gender and socio-economic status, amongst others. These digital gaps need to be addressed, if we want to ensure that persons with disabilities do not miss out on the opportunities provided by the digital economy.

48. [Fiber optics infrastructure and project management](#)

- Registration: OPENED, 02 May 2024 - 04 Oct 2024
- Dates: 09 Oct 2024 - 23 Oct 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$150.00

This course is designed to develop IT professional's knowledge and skills to scope, initiate, deliver and close a fiber optic project, in time, on budget, and to the highest quality specifications. Some of the topics to be discussed include tools and techniques for planning, design and implementing. FTTH, Campus, Backbone and Submarine Systems and other systems. The skill set garnered in this training will no doubt provide an impetus for a robust and resilient fiber network performance and higher skills.

49. [The technology evolution and planning of broadband network](#)

- Registration: OPENED, 18 Mar 2024 - 07 Oct 2024
- Dates: 14 Oct 2024 - 28 Oct 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: wangying@caict.ac.cn
- Price: \$0.00

This course will help the participants to know about the overall development status and experience of China's broadband network and universal service development status and experience; the introduction of different optical fiber broadband access technologies and technical solutions for fiber-to-the-room; the planning of FTTH network; management and operation of Massive Home Gateways; troubleshooting of FTTH networks.

50. [Zero trust: a progressive and comprehensive approach to CII protection](#)

- Registration: OPENED, 22 Jul 2024 - 06 Oct 2024
- Dates: 14 Oct 2024 - 24 Oct 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

The Zero Trust Architecture (ZTA) approach is rapidly emerging as a pivotal trend in cybersecurity, particularly for the protection of Critical Information Infrastructure (CII). Unlike traditional security models relying on perimeter defense, ZTA operates on the principle of "never trust, always verify,"

ensuring that every access request is continuously authenticated and authorized.

51. [How to build and implement an inclusive data governance framework](#)

- Registration: OPENED, 15 Aug 2024 - 22 Sep 2024
- Dates: 15 Oct 2024 - 01 Nov 2024
- Training type: Blended
- Location: World or Multi-Regional
- Languages: English
- Event email contact: queenie.tam@undp.org
- Price: \$0.00

Data is crucial in policymaking, public service delivery, and development, informing decisions regarding program design, resource allocation, and the evaluation of interventions. Despite its potential, governments and policymakers risk not capturing the full value of data when there are no clearly defined processes and rules for how data is managed within and across institutions. Establishing and implementing a data governance framework can ensure transparency, accountability, and public trust.

52. [SMTP - Economic and market tools of spectrum management](#)

- Registration: OPENED, 22 Aug 2024 - 19 Oct 2024
- Dates: 21 Oct 2024 - 15 Nov 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: Jmwakijele@afralti.org
- Price: \$300.00

This course will focus on the economics of spectrum management. The aim of this course is to introduce students to the main economic principles and market-based mechanisms of spectrum management. It presents and analyses available market tools for economic efficiency in the use of spectrum, such as auctions and spectrum pricing. It takes into account students' need to understand the overall context - especially how and where market- and price- based tools fit into a country's chosen regime of modern spectrum management.

53. [Future fixed and mobile broadband internet, cloud computing and IoT/AI](#)

- Registration: OPENED, 23 Jul 2024 - 03 Oct 2024
- Dates: 24 Oct 2024 - 25 Oct 2024
- Training type: Face to Face
- Location: World or Multi-Regional
- Languages: English
- Event email contact: s.laskowski@il-pib.pl

-
- Price: \$500.00

This course focuses on future fixed and mobile broadband Internet, cloud computing and IoT/AI, including technical, business and regulatory aspects. It covers Internet technologies (IPv6, QUIC, DNS, QoS, cybersecurity), future fixed-terrestrial and satellite broadband including gigabit metallic, cable, and optical broadband (FTTH/FTTR, 50G-PON), submarine cable, satellite broadband, as well as transport networks (ITU's OTN, SD-WAN, Carrier Ethernet).

54. [Smart city technologies - from theory to practice](#)

- Registration: OPENED, 24 Jul 2024 - 25 Oct 2024
- Dates: 29 Oct 2024 - 19 Nov 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: mikaila.collymore@cavehill.uwi.edu
- Price: \$275.00

This course is an advanced-level course in smart city design. It focuses on both theoretical and practical aspects of specific technologies that are required when developing smart city solutions.

55. [Strategic foresight 201](#)

- Registration: OPENED, 02 Sep 2024 - 28 Oct 2024
- Dates: 31 Oct 2024 - 20 Dec 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: innovation@itu.int
- Price: \$0.00

This instructor-led training course, Strategic Foresight 201, is all about helping acceleration centres understand how to plan for the future in a digital world. It focuses on trends in research readiness and is based on the Playbook for Strategic Foresight by the ITU/BDT Innovation and Entrepreneurship Alliance for Digital Development. Equipped with hypothetical case studies, this course is designed to speed up the change to digital technology, encourage new ideas, and support national growth goals.

56. [Causes and consequences of the digital divide](#)

- Registration: OPENED, 28 Jun 2024 - 23 Oct 2024
- Dates: 01 Nov 2024 - 28 Nov 2024
- Training type: Online instructor led

-
- Location: World or Multi-Regional
 - Languages: English
 - Event email contact: ituacademy@itu.int
 - Price: \$0.00

Digital technology is becoming important in addressing sustainable development challenges. This course introduces participants to the challenges of digital inclusion, the consequences of digital divides, and the opportunities towards inclusive and equitable digital transformation. The modules focus on digital inclusion, evaluation, and approaches to understanding ICTs and their relationship with development and governance in a changing technology landscape.

57. [Information society principles: towards e-governance](#)

- Registration: OPENED, 13 Jun 2024 - 23 Sep 2024
- Dates: 04 Nov 2024 - 08 Nov 2024
- Training type: Blended
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

The course explains the foundational concepts and components for e-governance interaction in information society. It starts with an introduction to what information society is and how it has established the environment for e-governance development and digital transformation in the public sector. Then, the main building blocks of e-governance, their aims, initiatives, and enablers are introduced, and how they are related to external subjects and domains.

58. [Bridging the mobile gender gap](#)

- Registration: OPENED, 30 Aug 2024 - 31 Oct 2024
- Dates: 04 Nov 2024 - 29 Nov 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

This course helps policymakers understand the size and drivers of the mobile gender gap in low- and middle-income countries and provides insights and recommendations on how to improve digital inclusion for women.

59. [Empowering Small States: pioneering digital futures](#)

- Registration: OPENED, 23 Aug 2024 - 20 Sep 2024

-
- Dates: 04 Nov 2024 - 08 Nov 2024
 - Training type: Face to Face
 - Location: World or Multi-Regional
 - Languages: English
 - Event email contact: mahdi_zain_sha_aril_zain@imda.gov.sg
 - Price: \$0.00

Delivered from the perspective of a small state and targeted at Director-level and above candidates from Forum of Small States (FOSS) countries involved in digital policymaking, this training course will share policy, regulatory and economic development approaches to digital transformation for a digital ready future.

60. [Emerging technology for digital transformation](#)

- Registration: OPENED, 04 Sep 2024 - 15 Oct 2024
- Dates: 04 Nov 2024 - 08 Nov 2024
- Training type: Face to Face
- Location: World or Multi-Regional
- Languages: English
- Event email contact: wangying@caict.ac.cn
- Price: \$0.00

This course is designed to immerse participants in the technological evolution and standard advancement of 5G and 5G-Advance, the development, policies, and ecosystem of the 5G industry as well as the typical application areas of 5G, such as energy, industry, education, healthcare, culture, and tourism, etc. It also covers deployment modalities through case studies in emerging technologies like AI, cloud computing, and big data.

61. [Fundamentals on e-waste policy and the role of producers](#)

- Registration: OPENED, 21 Jun 2024 - 22 Sep 2024
- Dates: 05 Nov 2024 - 08 Nov 2024
- Training type: Face to Face
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

This course will provide participants with an introductory exposure to the world of policymaking and electronics producer responsibility in the area of e-waste management, bringing together key learning materials based around the underpinning legal, financial and administrative components of well-functioning e-waste management systems.

62. [Emerging cybersecurity threats and vulnerabilities management on digital](#)

[infrastructures](#)

- Registration: OPENED, 09 Aug 2024 - 03 Nov 2024
- Dates: 11 Nov 2024 - 22 Nov 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

This course aims to equip professionals with in-depth knowledge and practical skills to manage emerging threats and vulnerabilities in digital infrastructures. The curriculum explores governance and covers policy development, ethical standards and regulatory frameworks in cybersecurity to ensure organizations' compliance with the latest threats, risk assessment methodologies, and security best practices.

63. [SMTP - Spectrum planning and policies for wireless innovation](#)

- Registration: OPENED, 22 Aug 2024 - 16 Nov 2024
- Dates: 18 Nov 2024 - 13 Dec 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: Jmwakijele@afralti.org
- Price: \$300.00

This course will cover an in-depth understanding of theories, tools and practices involved in spectrum management strategic planning and policy developments that are aligned with forward-looking analytical spectrum management approaches enabling wireless innovation.

64. [5G-Advanced mobile broadband and future services](#)

- Registration: OPENED, 28 Aug 2024 - 08 Dec 2024
- Dates: 09 Dec 2024 - 16 Dec 2024
- Training type: Online instructor led
- Location: World or Multi-Regional
- Languages: English
- Event email contact: s.laskowski@il-pib.pl
- Price: \$150.00

This course will focus on 5G-Advanced Mobile Broadband and Future Services, including technologies, regulation and business aspects. It will cover mobile broadband evolution, from IMT-Advanced (4G) to IMT-2020 (5G) and IMT-2030 (6G).

65. [ICT policy planning for good governance](#)

- Registration: OPENED, 24 Jul 2024 - 24 Nov 2024
- Dates: 17 Feb 2025 - 21 Feb 2025
- Training type: Face to Face
- Location: World or Multi-Regional
- Languages: English
- Event email contact: ituacademy@itu.int
- Price: \$0.00

This course explains the linkages of ICT with the development of the Digital Economy and the need for appropriate policy and regulatory framework for developing the ICT Sector in any country.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
