1. Strategic foresight 101

Registration: OPENED, 02 Sep 2025 - 31 Dec 2025

• Dates: 15 Mar 2024 -

Training type: Online self-pacedLocation: Global or multi-regional

Languages: English

• Event email contact: innovation@itu.int

• Price: \$0.00

This self-paced training course offers an introductory exploration of strategic foresight tailored to individuals engaged in fostering digital innovation for sustainable development. With a focus on bridging the digital divide and addressing global challenges, the course emphasizes the crucial role of strategic foresight in shaping equitable futures. Through seven modules, participants delve into essential concepts, tools, and terminology while honing practical skills in futures thinking.

2. Strategic foresight 201

Registration: OPENED, 02 Sep 2024 - 31 Dec 2025

Dates: 27 Jan 2025 - 31 Dec 2025
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: innovation@itu.int

• Price: \$0.00

This training course is by invitation only.

3. Designing interoperable digital government services for Maldives

Registration: OPENED, 04 Dec 2025 - 07 Dec 2025

Dates: 07 Dec 2025 - 08 Dec 2025

Training type: Face to FaceLocation: Asia & Danie

Languages: English

• Event email contact: ashish.narayan@itu.int

• Price: \$0.00

4. Masterclass: Advancing digital transformation and the SDGs through innovation

Registration: OPENED, 21 Nov 2025 - 08 Dec 2025

Dates: 09 Dec 2025 - 09 Dec 2025
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: cdo.atc@merit.unu.edu

• Price: \$35.00

Go beyond fundamentals and gain expert insights into how innovation reshapes organisations, sectors, and societies. Engage with peers worldwide who are committed to advancing purposeful digital progress and sustainable transitions.

Through this two-hour expert-led master class with state-of-the-art academic insights and three casesessions, participants will explore how innovation emerges, the enablers and barriers behind it, and its impact on the sustainable development goals and public policy.

5. Data Hackathon: Bridging the digital divide by uncovering digital deserts

Registration: OPENED, 15 Oct 2025 - 31 Dec 2025

• Dates: 05 Jan 2026 - 26 Sep 2026

• Training type: Blended

• Location: Global or multi-regional

Languages: English

• Event email contact: jose.cervera@itu.int

• Price: \$0.00

This innovation challenge focuses on mobilising the creativity of young people to apply data science and visualization techniques to uncover "digital deserts" and identify population groups left behind in achieving universal and meaningful connectivity. Through data analysis, storytelling, and teamwork, participants will explore the social, economic, and infrastructural factors shaping digital inclusion and propose data-driven solutions to bridge the digital divide.

6. Ecosystem Initiative Development 201

Registration: OPENED, 11 Nov 2025 - 11 Dec 2025

Dates: 19 Jan 2026 - 30 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: pankhury.harbansh@itu.int

• Price: \$0.00

This training course is by invitation only.

7. Wireless access technologies to internet network

Registration: OPENED, 27 Oct 2025 - 25 Jan 2026

Dates: 26 Jan 2026 - 02 Feb 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on Wireless Access Technologies to Internet Network including technical, business and regulatory aspects. It includes wireless and mobile evolutions including mobility approaches by IETF and 3GPP, 4G access technologies by 3GPP (LTE/LTE-Advanced), as well as Evolved Packet Core (EPC). The course also covers the main 5G technology accepted by the ITU umbrella IMT-2020, 5G New Radio (5G NR) and 5G Core, as well as WiFi access technologies from the IEEE.

8. Digital innovation ecosystems: building the future

Registration: OPENED, 10 Nov 2025 - 30 Jan 2026

Dates: 02 Feb 2026 - 27 Feb 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: training@afralti.org

• Price: \$300.00

This 4-week online Instructor-led course dives deep into the world of Digital Innovation Ecosystems. Participants will gain a comprehensive understanding of the key components, players, and trends shaping these dynamic environments. By leveraging the insights from the accompanying book, "Digital Innovation Ecosystems," the course will equip participants with the knowledge and skills to foster innovation within their own organizations and contribute to a thriving digital ecosystem.

Benefits:

9. Satellite coordination procedures and filings

Registration: OPENED, 04 Nov 2025 - 18 Jan 2026

Dates: 09 Feb 2026 - 20 Feb 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: training@afralti.org

• Price: \$0.00

10. Design and development of smart cities

Registration: OPENED, 10 Nov 2025 - 09 Feb 2026

Dates: 16 Feb 2026 - 06 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: mikaila.collymore@cavehill.uwi.edu

• Price: \$90.00

Many countries have begun to develop smart villages/towns/cities with varying degrees of success. This course focuses on the design and implementation of smart sustainable cities (SSCs), and would be useful for policy makers, urban planners, and anyone interested in understanding basic aspects of smart city development.

11. Trends in communications sector reform and regulation for the digital economy

• Registration: OPENED, 07 Nov 2025 - 16 Feb 2026

Dates: 02 Mar 2026 - 30 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: nokhanyo.yolwa@wits.ac.za

• Price: \$500.00

The course highlights the shifts in telecoms regulation, regulation for e-commerce and digital government, regulation for cybersecurity, and skills requirements for regulatory professionals and leaders. In 2026, technology trends in 5G, artificial intelligence applications, cloud computing and Internet of Things are key areas of interest as they reshape economic sectors like agriculture and digital trade, and social sectors like public health and education. This reshaping places new requirements for future oriented regulation.

12. QoS technologies and regulation for fixed and mobile

Registration: OPENED, 27 Oct 2025 - 01 Mar 2026

Dates: 02 Mar 2026 - 09 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on technical, business and regulatory aspects of QoS for Fixed and Mobile Networks. It includes QoS (Quality of Service) and QoE (Quality of Experience) fundamentals by ITU, as well as traffic and QoS management in Internet and IP networks. Further, it includes QoS for fixed ultra-broadband access, including QoS solutions in metallic and optical networks, carrier grade Ethernet QoS, as well as end-to-end QoS. The course also covers QoS for mobile ultra-broadband access, including 4G and 5G mobile technologies and their QoS capabilities and approaches.

13. <u>Informática forense y respuesta ante incidentes</u>

Registration: OPENED, 09 Nov 2025 - 06 Feb 2026

Dates: 02 Mar 2026 - 31 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

· Languages: Spanish

• Event email contact: ipretel@inictel-uni.edu.pe

• Price: \$0.00

Este curso está diseñado para proporcionar a los participantes los conocimientos y habilidades esenciales en respuesta a incidentes y análisis forense digital. El curso cubre desde los fundamentos de la identificación y preservación de datos digitales, hasta la interpretación de la evidencia en investigaciones legales. Los participantes aprenderán a gestionar de manera efectiva los incidentes de seguridad, identificando amenazas, conteniendo impactos y restaurando sistemas afectados, todo mientras se asegura la integridad de los datos para su uso en procedimientos legales.

14. Developing cybersecure infrastructure to support school connectivity

• Registration: OPENED, 25 Nov 2025 - 08 Feb 2026

Dates: 03 Mar 2026 - 23 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: gustavo.fonseca-ribeiro@itu.int

• Price: \$0.00

As countries accelerate their school connectivity efforts, a parallel imperative emerges: the urgent need to build cyber-resilient educational ecosystems. The rapid expansion of digital infrastructure in schools significantly increases the national attack surface, yet these institutions are frequently the most vulnerable and overlooked in national cybersecurity strategies.

15. Fiber optics planning, design, and deployment

Registration: OPENED, 10 Nov 2025 - 09 Mar 2026

Dates: 16 Mar 2026 - 27 Mar 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: pougwoke@dbi.edu.ng

• Price: \$150.00

This course is designed to encompass the theory, the technology and field engineering aspects of fiber optic planning design and deployment by adopting new developments in the industry. This course offers participants a thorough understanding of the basic physics associated with fiber systems alongside their respective applications - encompassing optical transmitters/receivers, multiplexing and transmission characteristics.

16. Circular economy through e-waste policy and producer action

• Registration: OPENED, 02 Jun 2025 - 14 Dec 2025

• Dates: 23 Mar 2026 - 27 Mar 2026

• Training type: Face to Face

• Location: Global or multi-regional

Languages: English

• Event email contact: ituacademy@itu.int

• Price: \$0.00

This training course provides participants with an intermediary exposure to the world of policymaking and electronics producer responsibility in the area of e-waste management. It brings together key learning materials and resources based on the underpinning circular economy principles and the legal, financial and administrative components of well-functioning e-waste management systems.

17. Spectrum monitoring techniques and methods

Registration: OPENED, 05 Nov 2025 - 08 Mar 2026

Dates: 29 Mar 2026 - 02 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: Arabic, English

Event email contact: EG-ATRC@tra.gov.eg

• Price: \$0.00

This training course focuses on equipping participants with foundational knowledge and practical

skills in Spectrum Monitoring. It emphasizes the critical role of spectrum monitoring in ensuring efficient use of radio frequencies, addressing interference issues, and supporting regulatory compliance.

18. Quantum communications and post-quantum cybersecurity: the next frontier

Registration: OPENED, 23 Sep 2025 - 08 Mar 2026

Dates: 30 Mar 2026 - 17 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: danielnunes@inatel.br

• Price: \$0.00

This 20-hour instructor-led online course is designed to equip government cybersecurity leaders, National Cybersecurity Bodies, and Critical Information Infrastructure Protection Managers with the knowledge needed to understand the quantum threat and transition to post-quantum cybersecurity.

19. Análisis de malware

Registration: OPENED, 02 Dec 2025 - 06 Mar 2026

Dates: 06 Apr 2026 - 30 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: Spanish

• Event email contact: ipretel@inictel-uni.edu.pe

• Price: \$0.00

El curso de Análisis de Malware brinda a los profesionales de telecomunicaciones, ciberseguridad e informática las competencias necesarias para comprender, identificar y examinar software malicioso como virus, troyanos o rootkits. A través de un enfoque teórico-práctico, los participantes aprenderán a analizar el funcionamiento interno del malware, su estructura e interacción con los sistemas operativos, aplicando técnicas de ingeniería inversa y métodos de análisis estático y dinámico.

20. Technical, business and regulatory aspects of 5G networks

Registration: OPENED, 27 Oct 2025 - 12 Apr 2026

Dates: 13 Apr 2026 - 20 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on technical, business and regulatory aspects of 5G mobile networks. It includes mobile broadband evolution, and LTE-Advanced-Pro as transition of 4G towards 5G mobile networks. It covers 5G network architecture, which is based on network slicing approach, 5G New Radio (NR) and 5G Next Generation core with network functions and software based architecture.

21. Introduction to telecom services customer experience management

Registration: OPENED, 14 Oct 2025 - 06 Apr 2026

Dates: 27 Apr 2026 - 29 Apr 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: EG-ATRC@tra.gov.eg

• Price: \$0.00

In our interconnected world, Quality of Service (QoS) and Quality of Experience (QoE) are essential metrics for telecom regulators and operators. These metrics not only indicate the technical performance of a network but also gauge the satisfaction of end-users. This course focuses on understanding and monitoring these metrics to maintain a high-quality network, ensure regulatory compliance, and boost customer satisfaction.

22. Securing next-gen telecom: building resilience and trust

Registration: OPENED, 17 Oct 2025 - 04 Jan 2026

• Dates: 27 Apr 2026 - 01 May 2026

• Training type: Face to Face

• Location: Global or multi-regional

Languages: English

• Event email contact: ituacademy@itu.int

• Price: \$0.00

Telecommunications is evolving fast with 5G, 6G, massive IoT, cloud-native architectures, and open networks. These advances unlock new opportunities but also bring complex cybersecurity challenges that can threaten trust and resilience.

This week-long training equips participants to tackle these challenges from strategic and technical perspectives. It covers the global cyber threat landscape, the role of trust in networks, and key technologies for secure telecom environments, including Zero Trust, Al-driven threat detection, and cloud, edge, and critical infrastructure security.

23. Gobernanza y transformación digital

Registration: OPENED, 11 Nov 2025 - 24 Apr 2026

Dates: 04 May 2026 - 31 May 2026
Training type: Online instructor led
Location: Global or multi-regional

· Languages: Spanish

• Event email contact: ipretel@inictel-uni.edu.pe

• Price: \$0.00

El curso ofrece una formación integral y práctica sobre cómo los procesos de transformación digital impactan la gestión pública, el diseño de políticas y la relación entre Estado, ciudadanía y tecnología. A lo largo de cinco semanas, los participantes explorarán los fundamentos de la transformación digital, principios de gobernanza digital, ciberseguridad, interoperabilidad, gestión del cambio y ciudadanía digital, a través de un enfoque basado en casos reales, trabajo colaborativo y aprendizaje experiencial.

24. Satellite connectivity for sustainable development: Technologies, global strategies and policies

Registration: OPENED, 09 Oct 2025 - 04 Jan 2026

• Dates: 04 May 2026 - 08 May 2026

• Training type: Face to Face

· Location: Global or multi-regional

· Languages: English

Event email contact: danielnunes@inatel.br

• Price: \$0.00

This 36-hour course is designed for policymakers, government officials, regulators, and ICT professionals eager to leverage emerging technologies to enhance service delivery, operational efficiency, and governance. The course focuses on satellite connectivity as a solution to bridge the digital divide and promote sustainable development.

25. Smart City Technologies – From Theory to Practice

Registration: OPENED, 21 Nov 2025 - 27 Apr 2026

Dates: 04 May 2026 - 22 May 2026
Training type: Online instructor led
Location: Global or multi-regional

· Languages: English

• Event email contact: mikaila.collymore@cavehill.uwi.edu

• Price: \$200.00

This course is an advanced-level course in smart city design. It focuses on both theoretical and practical aspects of specific technologies that are required when developing smart city solutions.

26. <u>Understanding and using ICT data to inform policies for Universal and Meaningful</u> Connectivity

Registration: OPENED, 26 Aug 2025 - 01 Feb 2026

• Dates: 11 May 2026 - 15 May 2026

• Training type: Face to Face

• Location: Global or multi-regional

• Languages: English

• Event email contact: ituacademy@itu.int

• Price: \$0.00

This face-to-face training focuses on enhancing skills for using ICT statistics to design, monitor and evaluate public policies to achieve Universal and Meaningful Connectivity.

27. Security and QoS in Internet network

Registration: OPENED, 27 Oct 2025 - 17 May 2026

Dates: 18 May 2026 - 25 May 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on Security and Quality of Service (QoS) in Internet network from technology, regulation and business aspects. It covers Internet fundamentals, including Internet protocols and architectures, Internet security standards and approaches as defined by IETF (Internet Engineering Task Force), as well as ITU's security architectures for end-to-end communications. Further, the course incorporates cybersecurity approaches from the ITU viewpoint, and security aspects of emerging cloud computing and Internet of Things (IoT).

28. Artificial intelligence for the Public Sector

Registration: OPENED, 04 Jul 2025 - 25 Jan 2026

• Dates: 19 May 2026 - 22 May 2026

• Training type: Face to Face

• Location: Global or multi-regional

Languages: English

• Event email contact: ituacademy@itu.int

• Price: \$0.00

29. Al in practice: building ethical, inclusive, and sustainable futures

Registration: OPENED, 09 Nov 2025 - 03 May 2026

Dates: 25 May 2026 - 05 Jun 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: wangying@caict.ac.cn

• Price: \$0.00

The course offers a comprehensive exploration of Artificial Intelligence, examining its evolving landscape and its capacity to drive inclusive and sustainable development. It delves into the foundational principles and key technologies that underpin AI, such as generative AI, Natural Language Processing (NLP), and computer vision. Participants will learn how to identify and prioritize high-impact AI applications across critical sectors like energy, health, and education.

30. SMTP - Spectrum management for satellite systems

Registration: OPENED, 09 Nov 2025 - 04 May 2026

Dates: 25 May 2026 - 19 Jun 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: Jmwakijele@afralti.org

• Price: \$300.00

This training explores the management of radio spectrum for satellite communication systems. It introduces the core principles of spectrum management for satellites, examines different types of satellite systems and Earth stations, and reviews their specific requirements. It also provides an overview of the International Telecommunication Union (ITU) Radio Regulations and related appendices, as well as the operational procedures of the ITU Radiocommunication Bureau (BR) and its software for notifying and recording satellite system assignments.

31. Cyber disaster response: development of simulation exercises

Registration: OPENED, 13 Nov 2025 - 15 Mar 2026

• Dates: 08 Jun 2026 - 11 Jun 2026

• Training type: Face to Face

• Location: Global or multi-regional

Languages: English

• Event email contact: mlobin@cert.govmu.org

• Price: \$0.00

This 3.5-day training course provides essential steps and guidelines for designing effective cybersecurity exercises, focusing on the practical aspects of cybersecurity. During the course, participants will learn how to define objectives, choose appropriate approaches, create realistic

scenarios, establish rules, select relevant metrics, and capture valuable lessons.

32. <u>Sustainable Smart City Development Through Fiber Optics Infrastructure and Project Management</u>

Registration: OPENED, 20 Nov 2025 - 25 May 2026

Dates: 08 Jun 2026 - 19 Jun 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

· Event email contact: pougwoke@dbi.edu.ng

• Price: \$150.00

33. <u>Satellite connectivity for sustainable development: Technologies, global strategies and policies</u>

Registration: OPENED, 09 Oct 2025 - 31 May 2026

Dates: 22 Jun 2026 - 10 Jul 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

Event email contact: danielnunes@inatel.br

• Price: \$0.00

This 20-hour instructor-led online course offers a comprehensive view of satellite connectivity and its strategic role in bridging the digital divide. Designed for professionals involved in digital policy, regulation, and technology adoption, the course explores the different types of satellite systems (LEO, MEO, GEO), their technical characteristics, applications, and global regulatory frameworks.

34. Key aspects and governance of Internet of things, big data and artificial intelligence

Registration: OPENED, 27 Oct 2025 - 21 Jun 2026

Dates: 22 Jun 2026 - 29 Jun 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on technical, business and regulatory aspects of Internet of Things (IoT), Big Data and Artificial Intelligence (AI). It covers Internet technologies for IoT, then IoT standards, architectures and interoperability, as well as IoT policies and regulations, including IoT security and

privacy issues. The course includes IoT services in 4G and 5G mobile systems, including massive IoT and critical IoT use cases. The IoT generates large amounts of data that cannot be processed by traditional techniques, and such data is referred to as Big Data.

35. Future broadband internet, cloud computing and internet of things

Registration: OPENED, 04 Nov 2025 - 22 May 2026

Dates: 22 Jun 2026 - 03 Jul 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: training@afralti.org

• Price: \$0.00

This 20 hours online instructor-led is designed to equip professionals from the ICT and telecommunications regulatory sector with the knowledge and skills needed to navigate emerging technologies and their regulatory implications.

36. Summer school on digital and green transitions

Registration: OPENED, 31 Oct 2025 - 01 Mar 2026

• Dates: 22 Jun 2026 - 26 Jun 2026

• Training type: Face to Face

· Location: Global or multi-regional

Languages: English

• Event email contact: cdo.atc@merit.unu.edu

• Price: \$0.00

This summer school is designed to introduce participants to the concept of sustainable digital transformation through various subtopics, including emerging digital technologies, e-waste, artificial intelligence, and behavioural change approaches and their application to sustainability.

37. Design and development of smart cities (2nd Cohort)

Registration: OPENED, 21 Nov 2025 - 16 Jun 2026

Dates: 23 Jun 2026 - 24 Jul 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: mikaila.collymore@cavehill.uwi.edu

• Price: \$90.00

Many countries have begun to develop smart villages/towns/cities with varying degrees of success. This course focuses on the design and implementation of smart sustainable cities (SSCs), and would be useful for policy makers, urban planners, and anyone interested in understanding basic aspects of smart city development.

38. Low earth orbit communication satellites and applications in digital economy era

• Registration: OPENED, 20 Nov 2025 - 10 Jul 2026

Dates: 20 Jul 2026 - 31 Jul 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: pougwoke@dbi.edu.ng

• Price: \$150.00

This comprehensive training program equips participants with in-depth knowledge of Low Earth Orbit (LEO) communication satellites and their diverse applications in the digital economy.

39. GovStack essentials: transforming public services with modern digital infrastructure

Registration: OPENED, 11 Nov 2025 - 30 Apr 2026

• Dates: 03 Aug 2026 - 07 Aug 2026

• Training type: Face to Face

• Location: Global or multi-regional

Languages: English

• Event email contact: anastasiia.dudko@taltech.ee

• Price: \$0.00

This training course will equip participants with the knowledge and tools to design and implement secure, interoperable, and citizen-focused digital public services. Through an in-depth exploration of GovStack's modular building blocks, service design tools, and frameworks such as PAERA, and real-world case studies, this course offers practical insights into creating efficient and scalable digital services.

40. <u>SMTP - Spectrum management for HF systems, science, maritime and amateur</u> services

• Registration: OPENED, 09 Nov 2025 - 27 Jul 2026

Dates: 17 Aug 2026 - 11 Sep 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: Jmwakijele@afralti.org

• Price: \$300.00

This training covers the entire radio spectrum ecosystem, with a focus on the use of the high frequency (HF) band. It also introduces international best practices in radio communication. By completing it, learners will gain the skills to plan spectrum use and assign frequencies effectively within their organizations. They will learn how to ensure interference-free communication in the field and how to use allocated spectrum in a sustainable and efficient way that benefits all stakeholders.

41. 5G-Advanced mobile broadband and future services

Registration: OPENED, 27 Oct 2025 - 16 Aug 2026

Dates: 17 Aug 2026 - 24 Aug 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course will focus on 5G-Advanced Mobile Broadband and Future Services, including technologies, regulation and business aspects. It will cover mobile broadband evolution, from IMT-Advanced (4G) to IMT-2020 (5G) and IMT-2030 (6G).

42. Fibra óptica en mercados emergentes: despliegue, regulación y compartición

Registration: OPENED, 11 Nov 2025 - 22 May 2026

• Dates: 24 Aug 2026 - 28 Aug 2026

• Training type: Face to Face

• Location: Global or multi-regional

• Languages: Spanish

• Event email contact: ipretel@inictel-uni.edu.pe

• Price: \$0.00

Este curso ofrece una visión integral sobre el papel estratégico de la infraestructura de fibra óptica en el desarrollo digital de países emergentes. A lo largo de 30 horas, se exploran los fundamentos técnicos de la fibra óptica, su importancia para la conectividad de alta velocidad y su impacto en la inclusión digital, el crecimiento económico y la transformación social.

43. Cyber threat intelligence

• Registration: OPENED, 19 Nov 2025 - 07 Jun 2026

• Dates: 31 Aug 2026 - 03 Sep 2026

• Training type: Face to Face

Location: Global or multi-regional

Languages: English

Event email contact: mlobin@cert.govmu.org

• Price: \$0.00

44. Políticas y regulación en telecomunicaciones: adaptación a nuevas tendencias globales

Registration: OPENED, 11 Nov 2025 - 12 Aug 2026

Dates: 31 Aug 2026 - 02 Oct 2026
Training type: Online instructor led
Location: Global or multi-regional

· Languages: Spanish

• Event email contact: ipretel@inictel-uni.edu.pe

• Price: \$0.00

45. Future fixed and mobile broadband internet, cloud computing and IoT/AI

Registration: OPENED, 27 Oct 2025 - 20 Sep 2026

Dates: 21 Sep 2026 - 28 Sep 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$150.00

This course focuses on future fixed and mobile broadband Internet, cloud computing and IoT/AI, including technical, business and regulatory aspects. It covers Internet technologies (IPv6, QUIC, DNS, QoS, cybersecurity), future fixed-terrestrial and satellite broadband including gigabit metallic, cable, and optical broadband (FTTH/FTTR, 50G-PON), submarine cable, satellite broadband, as well as transport networks (ITU's OTN, SD-WAN, Carrier Ethernet).

46. Smart cities telecom infrastructure

Registration: OPENED, 14 Oct 2025 - 31 Aug 2026

Dates: 21 Sep 2026 - 24 Sep 2026
Training type: Online instructor led
Location: Global or multi-regional

Languages: English

Event email contact: EG-ATRC@tra.gov.eg

• Price: \$0.00

This course introduces participants to the foundations of smart cities including their definition,

reference architectures, governance, and strategic frameworks. It focuses on strategies, policies, and successful examples to inspire innovative city planning and organization. In particular, it: (i) describes the connectivity infrastructure required for smart cities including fiber optics and wireless technologies, (ii) introduces smart systems and solutions, and (iii) explores business and governance models ensuring sustainable implementation and operation.

47. 5G for policymakers and government officials

Registration: OPENED, 20 Nov 2025 - 21 Sep 2026

Dates: 05 Oct 2026 - 23 Oct 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

• Event email contact: danielnunes@inatel.br

• Price: \$170.00

This course provides a comprehensive overview of 5G technology, its global regulation and applications. Participants will learn about the evolution and key components of 5G, its applications in sectors such as healthcare and transportation, and the regulatory landscape in different regions. The course also covers security and privacy issues, as well as the economic and social impacts of 5G. Case studies will be presented and best practices for effective 5G deployment will be discussed, preparing participants to influence the development of this technology.

48. SMTP - Spectrum management for aeronautical and radio determination services and military systems

Registration: OPENED, 18 Nov 2025 - 14 Sep 2026

Dates: 05 Oct 2026 - 30 Oct 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: English

Event email contact: Jmwakijele@afralti.org

• Price: \$300.00

This training offers a complete overview of spectrum management for aeronautical and radiodetermination services in both commercial and military domains. Participants will study aeronautical systems, spectrum regulations, and practical skills needed for effective spectrum management.

49. Fiber optics infrastructure and project management

Registration: OPENED, 20 Nov 2025 - 21 Sep 2026

Dates: 05 Oct 2026 - 16 Oct 2026Training type: Online instructor led

• Location: Global or multi-regional

Languages: English

• Event email contact: pougwoke@dbi.edu.ng

• Price: \$150.00

50. Mise en place d'une équipe de réponse à incident de sécurité informatique (CSIRT)

Registration: OPENED, 18 Nov 2025 - 21 Sep 2026

Dates: 07 Oct 2026 - 10 Oct 2026
Training type: Online instructor led
Location: Global or multi-regional

• Languages: French

• Event email contact: mlobin@cert.govmu.org

• Price: \$0.00

Ce cours vise à fournir aux participants les connaissances et compétences nécessaires pour concevoir, déployer et opérer une équipe de réponse à incident de sécurité informatique (de l'anglais : Computer Security Incident Response Team - CSIRT). À travers des présentations théoriques, des exercices pratiques et des études de cas, les apprenants découvriront les étapes clés de la mise en place d'un CSIRT, ses missions, son cadre organisationnel et juridique, ainsi que les outils et processus indispensables à une gestion efficace des incidents de sécurité informatique.

51. Cyber resilience for critical information infrastructures

Registration: OPENED, 18 Nov 2025 - 19 Oct 2026

Dates: 04 Nov 2026 - 07 Nov 2026
Training type: Online instructor led
Location: Global or multi-regional

· Languages: English

• Event email contact: mlobin@cert.govmu.org

• Price: \$0.00

This course focuses on enhancing the protection and cyber resilience of Critical Information Infrastructures (CII). These include essential assets, systems, and functions whose disruption or destruction could severely impact a nation's economy, government operations, public health and safety, as well as national defense and security.

52. <u>Technical</u>, <u>business</u> and <u>regulatory</u> <u>aspects of Artificial Intelligence and Metaverse</u> for future Internet and telecoms

Registration: OPENED, 27 Oct 2025 - 29 Nov 2026

Dates: 30 Nov 2026 - 07 Dec 2026

Training type: Online instructor ledLocation: Global or multi-regional

Languages: English

• Event email contact: s.laskowski@il-pib.pl

• Price: \$500.00

This course focuses on technical, business and regulatory aspects of Artificial Intelligence (AI) and Metaverse for future Internet and telecoms. It covers fixed and mobile broadband Internet, QoS, and cybersecurity, AI fundamentals for telecom sector including ITU's Machine Learning (ML), Generative AI, federated learning, Explainable AI (XAI) and responsible AI use. The course includes future AI-based clouds and IoT, including AI as a Service (AlaaS), edge AI and edge clouds, and Industrial IoT.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
