Subject: **ITU Centres of Excellence Face-to-face Training Course on Cybersecurity of Web Sites and Web Applications, Minsk, Republic of Belarus, 13-15 November 2019**

Dear Sir/Madam,

I am pleased to invite your organization to participate in the face-to-face training course on **Cybersecurity of Web Sites and Web Applications** to be held in Minsk, Republic of Belarus, from **13 to 15 November 2019**. This training is organized jointly by the International Telecommunication Union and the Belarusian State Academy of Communications as part of the Cybersecurity programme under the auspices of the ITU Centres of Excellence for CIS region. The training will be delivered in Russian.

This training course aims to introduce participants with the issues of network infrastructure and Internet services protection, as well as with best practices in the appliance of different network and program solutions aimed at the protection of web resources and the network in general. The training will consider possible web service attacks and their consequences (OWASP project and top 10 vulnerabilities), as well as possible variants of protection. The training will cover both theoretical instructions and practice.

Detailed information on this training course is described in the course outline which can be downloaded from the ITU Academy Portal at the following link: <http://academy.itu.int/>.

The training is intended for professionals dealing with: information protection in telecommunications systems and networks; security of computer systems and networks; administration of network devices of information and communication systems; as well as for heads and specialists of cybersecurity departments. The training course will be also of interest for managers in the sphere of ICT, employees of regulatory bodies, service providing companies, professors of ICT-specialized universities.

Registration should be made online at the aforementioned link **no later than 11 November 2019**. Payment details are specified in the course outline.

Additional information on this training course, such as an information note for participants, including a list of recommended hotels, is available at the ITU Academy Portal at <http://academy.itu.int/>.
