

Empower to Transform:

AI & Digital Transformation Capacity Development

in the Public Sector

*From **Capacity** to **Impact***

An ITU-UNESCO Joint Programme on Capacity Development on AI and Digital Transformation

Enhance capacity of governments to
lead human-centric AI and digital
transformation

Why partnering with us now?

Development

AI-ready versus AI-lagging states

Economy

Digital and AI as a driver of productivity & competitiveness

Governance

Manage risks while harnessing innovation

AI & digital readiness is now a determinant of state capacity... to thrive in the 21st century

The Global Call

“

We commit, by 2030, to:

*Prioritize and set targets for the **development of digital competencies of public officials and institutions** to enact, develop and implement strategies and policies for **inclusive, secure and user-centred digital public services**, including the development of skills and capacity to ensure the **safe, secure and resilient functioning of digital systems, networks and data** (SDG 16)*

Global Digital Compact (2024)

Partnering for **Impact**

A unique and complementary partnership by the two leading UN Agencies on AI and Digital Transformation delivering as one

SPARKAlliance

UNESCO convenes the SPARK-AI Alliance to foster collaboration, knowledge exchange, and innovation in AI capacity building for the public sector. The SPARK-AI Alliance sustains and delivers AI and digital capacity development through schools and public administrations for 100+ countries.

ITU Academy
Empowering minds

The ITU Academy and its Training Centres (ATCs) scale access to AI and digital technology related training to an 100,000+ userbase of policymakers, government officials and professionals in all countries and regions.

Our Solutions for Your Needs

A modular, customisable, scalable training and institutional support programme

AI and Digital Transformation breakthrough series

Our Value Added

194

Countries

100,000+

ITU Academy Users

50+

Schools of Public
Administration and ITU
Academy Training Centres

Commissions

Our approach

All about AI and Digital Transformation ...

***Justice
Sector***

***AI / Digital
Governance***

***Data
Governance***

***AI solutions
for
governments***

***Policy &
Regulation***

& more...

Wide range of topics

World-class training

Global expertise

Clear mandates

Scalable delivery

Adaptable content

Ways to partner with us

Flexible, customisable and ready to be funded

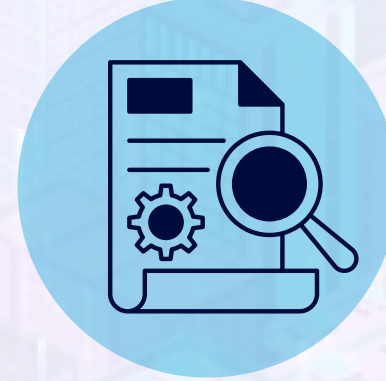

***Country
programmes***

***Full national
rollout***

***Regional
programmes***

***Multi-country
training***

***Diverse
audiences***

***Judiciary,
legislative,
public sector
leadership, ICT
regulators,
ministries***

***Global public
goods***

***Courses,
curricula,
toolkits,
