**Economic and Market-Based Methods of Radio Frequency Spectrum Management  
(2<sup>nd</sup> Intake)**

**2 – 27 August 2021**

**TRAINING COURSE OUTLINE**

**COURSE DESCRIPTION**

<b>Title</b>	<b>Economic and Market-Based Methods of Radio Frequency Spectrum Management (2<sup>nd</sup> Intake)</b>
<b>Objectives</b>	Objectives of the training course include the following: <ul style="list-style-type: none"><li>• Understand well the Economics of the RF Spectrum as a Resource;</li><li>• Understand well to calculate the market value of the Digital Dividend I (790-862MHz) and II (694-790MHz); and</li><li>• Understand well to License the Digital Dividend 1 (790-862MHz) and Digital Dividend II (694- 790MHz) at Market Value</li></ul>
<b>Dates</b>	2 - 27 August 2021
<b>Duration</b>	20 Days
<b>Registration deadline</b>	1 August 2021
<b>Training fees</b>	USD960
<b>Course code</b>	21OI26517AFR-E

**DESCRIPTION OF THE TRAINING COURSE**

This course demonstrates well Economics of Radio Frequency (RF) Spectrum as a Resource by presenting contributions of the RF spectrum to economy of a country through auctions. The course also demonstrates well how to calculate the economic/market value of the Digital Dividend 1 (790-862MHz) and Digital Dividend II (694-790 MHz) by Using Market Transaction Multiples and Discounted Cash Flow (DCF) Analysis Valuation Models.

## LEARNING OUTCOMES

---

After completing this course, the participant will be able to:

- Understand well the Economics of the RF Spectrum as a Resource;
- Calculate the Market Value of the Digital Dividend I (790-862MHz) and II (694-790MHz); and
- License the Digital Dividend I (790-862MHz) and II (694-790MHz) at Market Value.

## TARGET POPULATION

---

This training is targeted at personnel from regulators, mobile networks operators, economists and financial analysts involved in ICT sector, policy makers in the government and academia who are interested in understand well the economics of the RF Spectrum as the national asset.

## ENTRY REQUIREMENTS

---

Officers working with Regulators, Operators, Ministry responsible for Radio Frequency Spectrum Economy and Market.

## EVALUATION

---

Centres of Excellence shall grant certificates of achievement based on assessment tests undertaken during, and at the end of, each training. In this regard, Centres of Excellence shall develop assessment tools for this training. The tools should include the following:

Regular assessments such as:

- Quizzes
- Discussion Forums

- Assignments

Only candidates who have successfully completed all the assessments with a passmark of 60% shall be awarded the ITU certificate.

## TRAINING COURSE CONTENTS

---

### **Introduction to Basic Economic and Market Theory of Radio Frequency Spectrum Management**

- Trends in Demand for Radio Frequency (RF) Spectrum in the Monopoly and Competition Era
- Need for the economic and market based methods for the Spectrum Management
- Radio Frequency Spectrum Pricing
  - Administrative Incentive Pricing (AIP)
  - Opportunity Cost Pricing
- Requirements for the Economic and Market-Based Spectrum Management
  - Policy
  - Legislations
  - Regulations
  - Radio Frequency User Market Based Licensing Methods
  - Market Based Organization Structure of Spectrum Management

### **Introduction to Radio Frequency Spectrum**

- Sweet Spot Combination of Propagation of Radio Waves
- The Pot of Gold RF Spectrum
- Allocation of the Pot of Gold RF Spectrum
- ITU Regions of the World
- Map of the ITU Regions for Allocations of the Radio Frequencies
- Change of use of the VHF and UHF Radio Frequencies
- ITU Terrestrial Analogy Television Broadcasting Frequency Plan
- The Regional Radiocommunications Conferences

### **The Radio Frequency Spectrum Economy**

- Economics of the Radio Frequency Spectrum as a Resource
- Transition of Terrestrial Television Broadcasting from Analogue to Digital

### **Case Study of Digital Dividend 1 (790-862MHz) and Digital Dividend 2 (694-790MHz)**

- Channelisation Plan for the Digital Dividend 1&2
- Radio Frequency Spectrum Assignment Plan for the Digital Dividend I & II

### **The Radio Frequency Spectrum Valuation Methods**

- Market Transaction Multiple Valuation Model;
- Market Capitalisation Multiple Valuation Model

### **The Radio Frequency Spectrum Valuation Methods**

- Weighted Average Cost of Capital (WACC) Analysis;
- Discounted Cash Flow (DCF) Analysis Valuation Model

## METHODOLOGY (Didactic approach)

---

This course shall be conducted fully online. There will be Instructor led training, lectures, case studies and quizzes. All participants must do all the quizzes and pass in order to get a certificate from ITU. The tutor will deliver live lectures through ZOOM on every **Tuesday and Thursday from 15:00 Hours to 1700 Hours East Africa Time (EAT)**. This will be opportunity for participants to interact directly with the tutor and ask questions and discuss different topics covered online in that week.

## REGISTRATION AND PAYMENT

---

### ITU Academy portal account

Registration and payment should be made online at the ITU Academy portal.

To be able to register for the course you **MUST** first create an account in the ITU Academy portal at the following address:

<https://academy.itu.int/index.php/user/register>

### Course registration

When you have an existing account or created a new account, you can register for the course online at the following link: <https://academy.itu.int/training-courses/full-catalogue/economic-and-market-based-methods-radio-frequency-spectrum-management-2nd-intake>

You can also register by finding your desired course in our training catalogue <https://academy.itu.int/index.php/training-courses/full-catalogue>

### Payment

### 1. On-line payment

A training fee of **USD 960** per participant is applied for this training. Payment should be made via the online system using the link mentioned above for training registration at <https://academy.itu.int/training-courses/full-catalogue/economic-and-market-based-methods-radio-frequency-spectrum-management-2nd-intake>

### 2. Payment by bank transfer

Where it is not possible to make payment via the online system, select the option for offline payment to generate an invoice using the same link as above. Download the invoice to make a bank transfer to the ITU bank account shown below. Then send the proof of payment/copy of bank transfer slip and the invoice copy to [Hcbmail@itu.int](mailto:Hcbmail@itu.int) and copy the course coordinator. **All bank transaction fees must be borne by the payer.**

**Failure to submit the above documents may result in the applicant not being registered for the training.**

### 3. Group payment

Should you wish to pay for more than one participant using bank transfer and need one invoice for all of them, create an account as **Institutional Contact**. **Institutional Contacts** are users that represent an organization. Any student can request to be an institutional contact or to belong to any existing organization.

To do this, head to your profile page by clicking on the **“My account”** button in the user menu. At the bottom of this page you should see two buttons:

- a. If you want to **become an institutional contact**, click on the **“Apply to be an Institutional Contact”** button. This will redirect you to a small form that will ask for the organization name. After you fill the name of the organization you want to represent, click on **“continue”** and a request will be created. An ITU Academy manager will manually review this request and accept or deny it accordingly.
- b. If you want to **belong to an existing organization**, click on the **“Request to belong to an Institutional Contact”** button. This will redirect you to a small form that will ask you to select the organization you want to join from an organization list. After you select the correct organization, click on **“continue”**, a request will then be created. The Institutional Contact that represents that organization will manually accept or deny your request to join the organization.
